

About Seattle Skeet and Trap Club

With roots going back nearly 100 years to 1928, SST is the largest all volunteer shotgun dedicated club in Washington. Public shooting is available 4 days a week year-round at our location in the King County Shooting Sports Park.

Members enjoy reduced shooting rates, special activities, additional benefits for their children, access to our components program which sells ammunition and reloading components at very competitive prices.

As part of the club's environmental stewardship, all regular targets are bio-degradable.

Map and Directions to the Site (King County Shooting Park) Ravensdale, Wa.

1. Go to the intersection of Highways 516 and 169 (169 is called the Maple Valley Hwy) (516 is called Kent Kangley Road)

Seattle Skeet and Trap Club

Skeet: Originally developed as a means of keeping wingshooting skills sharp during the off season, skeet has evolved into a recreational and competitive game. The crossing targets in skeet offer excellent preparation for pigeon, dove and quail hunting. SST offers American and International Skeet as well as Skeet Doubles, and Wobble Skeet. SST hosts several registered skeet shoots each year.

Trap: From its origins as a replacement for competitions using live pigeons, trap has grown into the most popular shotgun sport. With targets generally traveling away from the shooter, trap is good practice for hunting pheasant and other game that heads away from the hunter. SST offers 16 yard and handicap American Trap, Trap Doubles and Continental Trap (known as wobble trap in some parts of the country). Two registered trap shoots, sanctioned by the Pacific International Trapshooting Association, are held each year.

Five Stand: A relatively new game in which there are 5 shooting stations. The shooter is presented targets from many different angles and in a variety of combinations. The SST 5-stand offers up to 20 machines, which allows for a wide range of targets at all levels of difficulty. SST holds several registered 5-stand competitions each year, usually in conjunction with sporting clays competitions.

Sporting Clays: One of the newest shotgun sports, Sporting Clays gives the shooter a virtually endless variety of target presentations. The course is reset frequently to keep it fresh, interesting and challenging. Unlike the other sports, Sporting Clays is shot from a number of different stations along a trail with the shooters traveling from station-to-station. Sporting Clays provides the most "hunting-like" experience of all the shotgun sports. The SST Sporting Clays course includes 13 stations positioned along a beautiful wooded trail. Most are covered making the course "bad weather friendly".

Youth: SST is committed to growing and preserving the shotgun sports and actively encourages youth participation. Beyond just participation, we provide training in firearm safety and the various disciplines. Our goal is to provide these young people with a safe and positive experience in the shotgun sports. Club-sponsored youth shoots are held on a regular basis when any young shooter can come, receive instruction and shoot up to 50 targets for free. Our youth team allows young shooters an avenue to improve their skills further and step up to competition. As a member, your children up to age 18 are eligible for 2 free rounds of trap or skeet on Sundays.

Group and Corporate Events

More and more companies and organizations are finding that a day at the range is perfect way to team-build and reward performance. SST will work with you to tailor an outing to your specific needs. Trap, Skeet, 5-Stand and Sporting Clays are all available for special events and we will be happy to help you decide what's best for your group.

A typical event includes:

- Shooting and clay target overview
- Safety presentation and discussion
- Basic instruction
- Targets and shells
- Catered food by arrangement

Instruction

SST welcomes shooters of all skill levels from "never fired a gun" to world champions. We know that it can be intimidating for a beginner to shoot in public so we provide instruction to understand the games and get you started with sound basics. On weekends, we provide informal instruction in safety and the basics of shotgun shooting at no charge. When you want to move up to the next level, a number of club-approved certified instructors work with shooters on an individual or small group basis.

SST is proud to host four Hunter Education classes a year. Not only are these classes required for many hunting licenses but they teach safety principles that help to keep the woods and duck ponds safe.
